Using Internet Explorer in Windows 10
August 7, 2015

> **Windows 10 has now been tested and approved for use with LDD applications. You must use Internet Explorer (IE 11), which is included in Windows 10. Instructions on how to access IE 11 can be found below.**

Windows 10 includes two web browsers

The default web browser in Windows 10 is called Edge. **The Edge browser is <u>not supported</u> for use with LDD applications.**

Internet Explorer

### How to find Internet Explorer

1. Click on the **Start Menu** button on the Windows 10 screen (lower left corner).

    Search the web and Windows

2. Click on **All apps** to display the alphabetical Apps list.

    File Explorer
    Settings
    Power
    All apps

3. Scroll down to the Ws to find **Windows Accessories**.

    W
    Weather
    Windows Accessories
    Windows Administrative...
    Windows Ease of Access

4. Within **Windows Accessories**, you'll find **Internet Explorer**.
    Right click to pin it to your Task Bar.
    (At this point, it's not suggested to make it a shortcut on your desktop.)   Note that when you upgrade to

    Weather
    Windows Accessories
    Character Map
    Internet Explorer
    Math Input Panel

Windows 10, none of your old shortcuts will work –
you will need to recreate them.

Adjust your IE settings

Before running RealtiWeb and other LDD applications on a newly installed version of Windows 10, you'll need to adjust IE settings:

For workstations that have been updated to Windows 10:

1. Go to www.lawyerdonedeal.com/rplus/RPWSecurity.reg or click here: <u>adjust your IE settings</u>.

For new Windows 10 workstations:

1. Go to www.lawyerdonedeal.com/rplus/RPWSecurity.reg or click here: <u>adjust your IE settings</u>.
2. Run the LDD Online Utility: <u>LDD Online Utility for 64-bit Windows</u>. Save the file to your desktop. Close your IE browser and double-click on the file you just downloaded to run the utility.
