

Remote Signing Protocol

Requirements

1. Video Conferencing Capability¹

Lawyer will need to utilize a video conferencing capability ("VC") that is easily accessible by their clients.

In light of the fact that some clients may not have video cameras on their computers the VC should be useable by the client on their cell phone (which will in all likelihood have a camera).

LDD has a recommended VC for lawyers who do not otherwise have a VC they are familiar with and would prefer to use. Please ensure that the video and sound quality of your VC are good and all of the parties can use it.

2. Document Scanning and Transmission

Clients will need to have access to a reliable document scanning capability in order to upload documents (via mobile phone) and transmit them to the lawyer. Lawyers should also ensure that documents can be couriered to clients if necessary.

Adobe Scan can be downloaded by the client to their mobile phone in order facilitate the scanning of documents and may be downloaded through the [Apple App Store](#) for IOS devices or the [Google Play Store](#) for Android devices. Documents scanned through Adobe Scan will be saved by Adobe as customer data². Please note that LDD makes no representation or warranty as to Adobe's assurance of data storage or retention. Lawyers should consider recommending that the client delete all copies of the scanned documentation after the lawyer confirms they have a copy.

3. Virtual Commissioning

The closing protocol discussed in this document relies on contents of the following documents (reproduced in **Schedule A**)

- OC 127/2020 - The Land Titles (Public Emergencies) Amendment Regulations, 2020
- Law Society of Saskatchewan Practice Directive, Number 1, Remote Execution of Certain Documents Via Electronic Means, March 26, 2020

¹ This video service is owned and operated by an independent, third-party service provider (the "Service") and is provided "As Is". LDD disclaims all warranties of any kind, express or implied, and makes no representations whatsoever as to your use of the Service. You are solely responsible for your and each end user's use of the Service and shall abide by and ensure compliance with all laws in connection with your and each end user's use of the Service including, but not limited to, laws related to recording (if and when available), intellectual property, privacy and export control.

² **Adobe: Where does customer data reside?**

Customer data is stored in Amazon S3 and Adobe designates which physical region individual customers' data and servers will be located. Data replication for Amazon S3 data objects is done within the regional cluster where the data is stored and is not replicated to data center clusters in other regions. Adobe operates Creative Cloud out of three regions: United States, EU, and Asia Pacific. Example: By default, all data from Creative Cloud customers in the EU will have their cloud data stored in the AWS data center in the EU and that data will not be transferred to data centers outside the EU.

4. Electronic Signatures

The process described in item 5 below contemplates clients affixing wet signatures to paper documents. This process may evolve to the use of electronic signatures once this type of functionality can be factored into the procedure below.

5. Virtual Closing Procedure

Establish time for video conference with client at least 48 hours before closing to allow for time to courier documents if necessary.

Client to provide scanned copies of identification before scheduled video conference for lawyer's review.

Send electronic copies of documents to be reviewed with and/or signed by client in advance of the video conferencing meeting.

Ensure that jurats for all sworn documents include the words "via electronic means" or other appropriate details to ensure that users of the signed document are fully aware of the manner in which the document was signed.

LDD will allow subscribers to post closing documents to client portal and client will click link to portal and answer 2 authentication questions to gain access to documents in portal.

Client downloads and prints paper copies of documents.

Lawyer witnesses/commissions wet signature of documents by client (see attached **Schedule B** for Video Conferencing check list).

Client scans signed documents and emails them to lawyer.

Lawyer prints documents and signs witness statements and/or jurats.

Lawyer to complete the following forms (as required):

- Certificate of Lawyer ([as per the Registrar of Titles](#))
- Form PD1 – Declaration of Lawyer ([as per the Law Society of Saskatchewan](#))

Schedule A

Law Society of Saskatchewan Practice Directive

Remote Execution of Certain Documents Via Electronic Means

WHEREAS the Government of Saskatchewan may, from time to time, implement and extend emergency measures that modify the requirements of how the execution of certain documents may be witnessed by lawyers to allow for the witnessing of signatures via electronic means;

AND WHEREAS 'electronic means' is defined as being an electronic method of communication that includes both audio and visual aspects, such that the lawyer and the signator can both hear and see each other during the course of the meeting and execution of the document

AND WHEREAS the Law Society of Saskatchewan is entitled to impose additional regulatory requirements in relation to the manner in which lawyers avail themselves of these emergency measures;

AND WHEREAS the Law Society of Saskatchewan is authorized to issue directives pursuant to Law Society of Saskatchewan Rule 1143;

THE LAW SOCIETY OF SASKATCHEWAN HEREBY DIRECTS that lawyers who avail themselves of these emergency measures shall:

- require that a signator(s) display photo identification, and ensure that they obtain a screen capture (or alternatively a photo of their screen) showing the face of the signator(s) of the documents alongside their photo identification;
- manage risks associated with fraud, identity theft, undue influence, duress and potential lack of capacity by:
 - o Considering whether there are red flags of fraud in the matter;
 - o Assessing whether there is a risk that the client may be subject to undue influence or duress, including observing who else is physically in the room with the client during the execution of documents. If there is such a risk, consider if you are able to assist the client at this time without meeting in person;
 - o Confirming your client's understanding about the documents they are executing and provide adequate opportunity for them to ask questions during the meeting carried out by electronic means.
 - o Being alert to the fact that persons may attempt to use the execution of documents by electronic means as an opportunity to commit fraud or other illegal acts.
- amend any jurats as required to include the words "via electronic means" or other appropriate details to ensure that users of the signed document are fully aware of the manner in which the document was signed.
- prepare a written record, in Form PD1 prescribed by the Law Society of Saskatchewan for placement on the client file, detailing how the above noted risks associated with the execution of documents by electronic means were addressed.

Lawyers continue to be required to adhere to all Law Society of Saskatchewan Rules governing client identification and verification.
